Profile

An ambitious front-end developer with more than 1-year experience working with Front-End technologies such as (HTML, CSS, and Javascript) in addition to React, Bootstrap, Redux, and other frameworks and libraries. Highly adept at both independent and collaborative projects. I can create, enhance, and maintain user interfaces for web applications, utilizing React.js to build interactive and responsive components. Work in close partnership with designers, backend developers, and cross-functional teams to translate design mockups and feature requirements into functional and visually appealing web interfaces.

Work Experience

Remotely Frontend Internship (MYM)

MYM is a software company specializing in software development, creating custom programs for the company and others.

Aug 2023 – Nov 2023

Giza, Egypt

During my time at MYM, I did :

- Worked on the company's website with the team.
- Developed the company's dashboard.
- Collaborated with the back end & UI/UX team.
- **website:** <https://mym-web-git-main-bassanthassan855-gmailcom.vercel.app/> 🌐
- **code:** <https://github.com/Bassant855/MYM> 🌐

Freelance Job

I worked on a graduation project for surveying engineering students. It showed all the landmarks that exist in Cairo and Giza using HTML, CSS, and JS.
